Gentlemen:

Thank you for your \$10 exchange offer on the new A2-FS1 Flight Simulator diskette for the Apple II. I enclose my cassette and a check for \$10.00.

Incidentally, you might want to consider making future such exchanges through your selling dealers. My dealer, Computerland of Los Altos, said they would be happy to participate if arrangements were made with them in advance. (On the other hand, I appreciate that such a setup might be an administrative nightmare.)

In any case, as an enthusiastic user of the cassette version, I look forward to receiving the improved (and more convenient) diskette version.

Very truly yours,

W. Reed Jenney
